VISION

To achieve the utilization of wood as a sustainable, widely used, and long lasting building material;

In this context, to find the most accurate information, cutting-edge technologies and methods available;

To offer these to the service of users and applicators;

By training, enabling and motivating our workforce and sales partners for success.

MISSION

Leaving a heritage of green forests and habitable cities to the coming generations by achieving the most efficient utilization of wood as a renewable material through the use of technology.

Established in 1966 in Istanbul as a Turkish-British partnership, HEMEL Wood Coatings has been at the forefront of the wood preservation and coating industry for over five decades. With a global presence, HEMEL proudly exports exceptional wood coatings to 32 countries around the world. Our international reach includes renowned markets such as the Netherlands, the United States, France, Russia, and Singapore. Through strategic partnerships and an unwavering focus on excellence, we have successfully established ourselves as a trusted and preferred choice among customers worldwide.

As a company driven by innovation, HEMEL continuously invests in research and development to stay

ahead of industry trends. We are dedicated to exploring cutting-edge technologies, sustainable practices, and eco-friendly formulations, ensuring our wood coatings are high-performing and environmentally conscious.

As we continue to lead the wood coating industry, HEMEL remains committed to upholding the highest standards of quality, innovation, and customer service. Our extensive experience, global presence, and unrivaled product range make us your reliable partner for all your wood coatings needs.

Why Environmentally Friendly?

number of trees we have
assisted to save

141.464.481

At **15.000** km/year per car and **2,5** trees
needed to clean the **CO₂** emission of each car,

we have assisted in the
cleaning of

56.585.792

cars' **CO₂** emission.

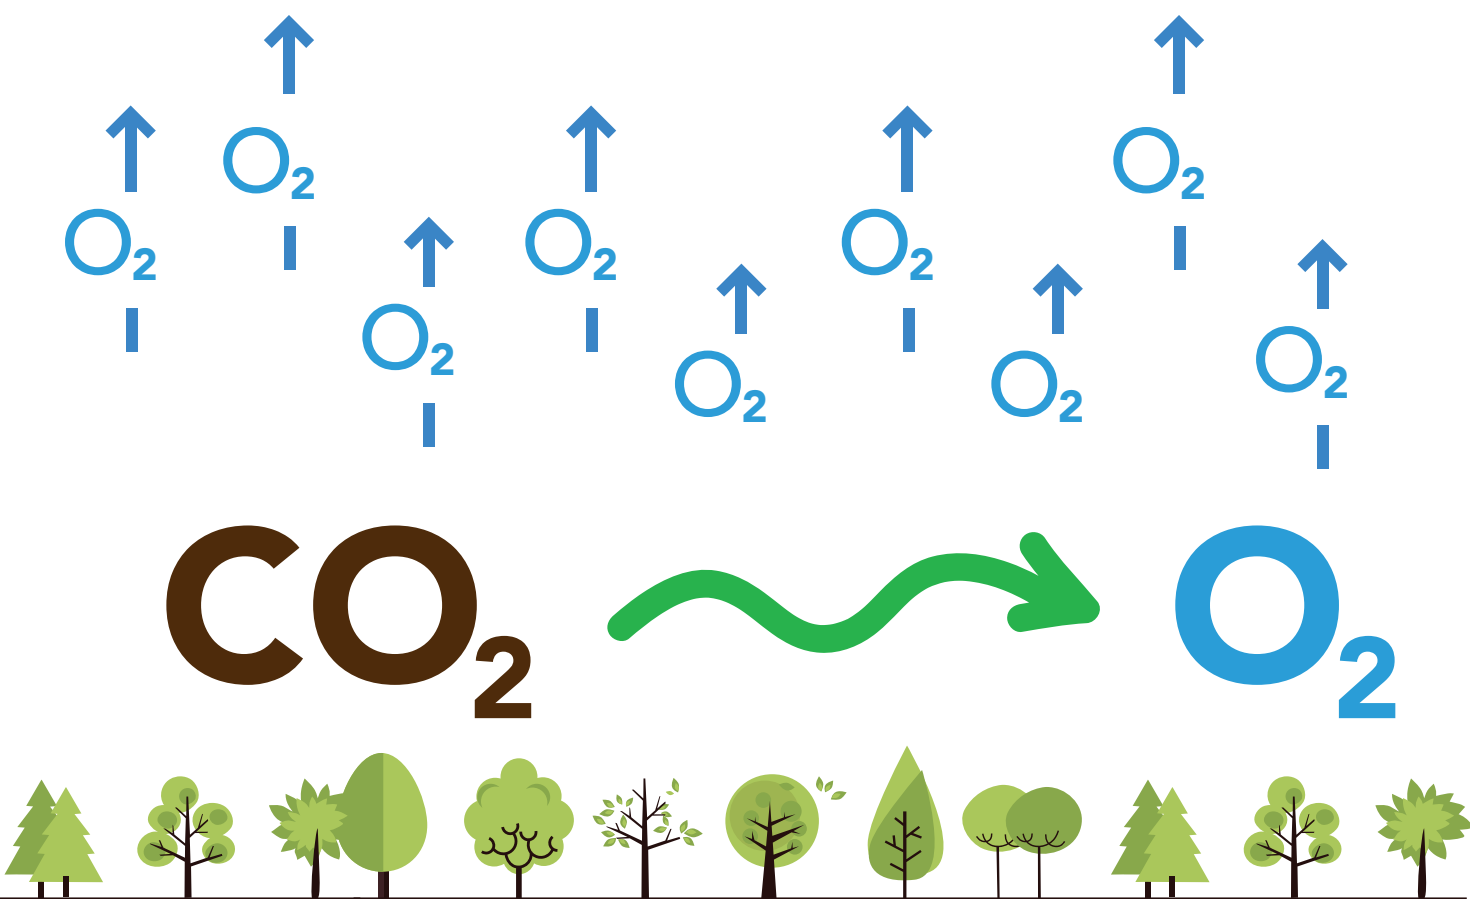

With the trees saved in 55 years

and assuming **740** kg oxygen
consumption per person,
we provided the **oxygen** needs of

20.209.212

people.

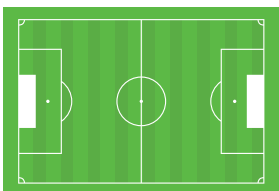

If all trees saved within the
past 55 years were planted
every 2 meters, they would
cover an area of

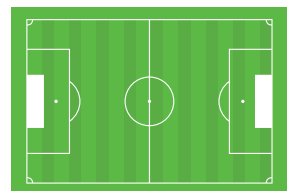

1.577.097.638m²

This area would be equal to:

462 Central Park.
