TEST CERTIFICATE

no. RFV/ 028

Case no. 3303/ 55 / 96

issued in compliance with the decree of the Ministry of the Interior of 6th March 1992 on "Technical and procedural rules for the assignment of a reaction-to-fire class to and homologation of fire-retardant coating products applied on wooden substrates" (G.U. no. 66 of 19/03/1992).

Taken into consideration the results of the tests performed according to the CNVVF/UNI 9796 norm,

we hereby certify that the FIRE-RETARDANT COATING PRODUCT

**manufactured by: HICKSON COATINGS ITALIA SpA
Via del Fiffo, 12 - 40065 Pianoro - (BO)**

coded as: TA

has been assigned the REACTION-TO-FIRE CLASS: 1 (ONE)

This certificate is valid solely for the sample product under test.

Date 12/06/1996

**The Director
(Dr. Eng. Aldo IRACE)**

Ministry of the Interior
GENERAL DIRECTION OF CIVIL PROTECTION

According to the ministerial decree of 6th March 1992 on "Technical and procedural rules for the assignment of a reaction-to-fire class to and homologation of fire-retardant coating products applied on wooden substrates";

According to the application submitted by HICKSON COATINGS ITALIA S.p.A., located in Via del Fiffò, 12 - 40065 PIANORO (BO), manufacturers of the fire-retardant product coded as "TA", for the homologation of said product for fire prevention purposes;

According to reaction-to-fire certificate no. 3303/55/96-RFV/028 of 12/06/96 and subsequent integrating note no. 3856 of 10/10/96 both issued for the above mentioned product by the "Centre for Studies and Experiences of the Firemen's National Body" in Capannelle-ROME;

According to the herewith attached manufacturer's declaration (technical data sheet) issued by HICKSON COATINGS ITALIA S.p.A. located in Pianoro (BO);

WE HEREWITH HOMOLOGATE

the prototype of the fire-retardant coating product coded as "TA" manufactured by HICKSON COATINGS ITALIA S.p.A. located in Pianoro (BO) by coding it with no. BO1159PVI100001 and assigning it a 1 (one) reaction-to-fire class. Such homologation is issued for fire prevention purposes only. We authorize reproduction of the product in compliance with the ministerial decree mentioned in the above introduction, in accordance with the properties shown by the product when tested and the characteristics declared by the above mentioned company in the above mentioned manufacturer's declaration.

The validity of this homologation certificate is not applicable in case the fire-retardant coating product is not perfectly applied in strict compliance with directions included in the manufacturer's declaration attached to the test certificate.

The conformity mark, to be applied on each package of the product subject to this homologation, must show:

- CAPTION: "FIRE-RETARDANT COATING PRODUCT"
- NAME OF MANUFACTURER: HICKSON COATINGS ITALIA S.p.A. (or other distinctive mark)
- YEAR OF PRODUCTION: (to be indicated)
- REACTION-TO-FIRE CLASS: 1 (ONE)
- CODE: BO1159PVI100001;

The conformity declaration to be attached to any type of supply of the product subject to this homologation shall also show the above mentioned data of the conformity mark as well as the validity period of the product's effectiveness, which cannot anyway be longer than 5 years' time from product application.

All obligations of the manufacturer and of all involved parties as per Civil Code, Penal Code and the ministerial decree dated 6th March 1992 shall apply.
Rome, 15th November 1996
